

Adopt a child - Information

We recently started a new project: Adopt a Child. Won't you and/or your organisation join us in saving a child's life as well as a child's future by 'financially adopting' one or more of our children? To be able to provide for all the basic needs of our children, we spend on average N\$2 000.00 per child per month. You can 'financially adopt' one of our children for N\$2 000.00 per month. With the current exchange rate this is € 120 per month.

Your monthly donation will be used to provide the daily basic needs of the child. For every child you adopt we offer the option of regular feedback, photos of the child as well as a way for you to communicate directly with him/her and to have a relationship with the child. If you live nearby you can visit the child in Hope Village. As all the children live together, eat together and drive in the same bus to school together, all children will benefit from your donation. The 'adopted' children can't receive personal presents or individual financial sponsoring.

The minimum period of commitment is one year. After one year the sponsorship can be ended, by sending a mail at least one month in advance.

It is our believe that financial integrity and transparency is of the utmost importance. In accordance with good corporate governance, Hope Village Europe's financial records are open for public viewing and available on our website.

Registration form - Yes, I give Hope my hand

Name and surname: _____
Name Company (optional): _____
Email address: _____
Postal address: _____

I am interested in financially adopting the following number of children: _____
