HOPE VILLAGE NAMIBIA

Start supporting the near hundred children of Hope Village Namibia through our foundation!

Hope Village is an orphanage located in Windhoek/Namibia. In Hope Village neglected and underprivileged children are growing up in a warm and loving environment, receiving as much personal attention as possible for their individual development and well-being. Hope Village especially supports children who are victims of the HIV/AIDS pandemic. These children have lost their parents due to AIDS or are HIV positive themselves. In a country like Namibia, where 20 % of the population is HIV positive, the number of AIDS orphans is still increasing and the need of help gains in importance every day.

HOPE VILLAGE EUROPE

Hope Village is receiving many once off donations like a new school bus, kitchen or washing machine. Unfortunately Hope Village is still struggling with the monthly operational costs like groceries, electricity and petrol.

We as former volunteers decided to incorporate Foundation Hope Village Europe to fill this structural financial gap. We are supported by our family and friends. Due to the personal relationship of our donors to Hope Village they know exactly how their donations are spend. Foundation Hope Village Europe hardly has any expenses so our donations are exclusively used for the best purpose - the children of Hope Village.

But only many hands put together can make a change.

The Kids of Hope Village also need your hand!

From only 3 euro's per month you can support Hope Village - just fill in the attached donation card and send it to our foundation.

Are YOU in?
